Elastic Cloud managed service features

Elastic Cloud gives you the flexibility to run where you want. Deploy our managed service on Google Cloud, Microsoft Azure, or Amazon Web Services, and we'll handle the maintenance and upkeep for you.

Standard**Gold****Platinum****Enterprise****PLATFORM SERVICES**

Deployment autoscaling	✓	✓	✓	✓
Same day version availability	✓	✓	✓	✓
Instant access to security patches	✓	✓	✓	✓
Single-click deployment upgrades	✓	✓	✓	✓
In-place configuration change	✓	✓	✓	✓
Deployment templates	✓	✓	✓	✓
Hot-warm-cold architecture, with automated index curation	✓	✓	✓	✓

searchable snapshots				
Frozen data tier with automated index curation and searchable snapshots				✓
Automated snapshots (configurable, default every 30 minutes)	✓	✓	✓	✓
REST API for deployment management	✓	✓	✓	✓
REST API support in ecctl CLI, Golang SDK, and generated SDKs	✓	✓	✓	✓

Feature authorized at Moderate Impact level on AWS GovCloud (US) ²	✓	✓	✓	✓
High availability across zones	✓	✓	✓	✓
Console signup with Google Account	✓	✓	✓	✓
Console signup with Microsoft Account	✓	✓	✓	✓
Multi-factor authentication	✓	✓	✓	✓
Multi-user management	✓	✓	✓	✓
Role-based access control	✓	✓	✓	✓

Q⁺

AWS Marketplace billing integration	✓	✓	✓	✓
Microsoft Azure Marketplace billing integration	✓	✓	✓	✓

² Elastic Cloud subscriptions on AWS GovCloud (US) are only available annually at this time (not monthly).

³ Elastic APM is not supported on Elastic Cloud Standard when purchased through the AWS Marketplace.

⁶ There are two options for OpenTelemetry intake: native support of the OpenTelemetry protocol directly into APM Server (experimental), and the Elastic exporter on the OpenTelemetry collector, which is the recommended approach. If you choose the latter, note that Elastic Cloud does not host the Elastic exporter on the OpenTelemetry collector exporter, refer to [documentation](#) to set one up adjacent to your applications.

⁷ Elastic Certified Professionals can be added as additional Support contacts on paid subscriptions at no additional charge.

⁸ Access to administering Kibana subfeature privileges start at the Gold tier and are available on a per-feature basis matching the feature's subscriptions tier.

⁹ [Elastic GeolP Database Service Agreement](#)

¹⁰ Re-distributing the Windows release of Packetbeat and the Network Packet Capture agent integration for Windows hosts requires an additional license to npcap, a Windows packet sniffing library, that may be obtained from [nmap.org](#).

¹¹ Advanced cluster rebalancing is based on observed data stream write loads described in cluster-level shard allocation.

¹² Access to the synthetic monitoring managed testing infrastructure is limited to Elastic Cloud users only or users consuming Elastic Cloud through a CSP marketplace. Test runs executed on the managed testing infrastructure incur an additional cost.

¹³ Synthetic _source is an Enterprise feature from 8.17 onward.

¹⁴ Updates provided through this subscription page exclude [End-of-Life \(EOL\) products](#) such as Enterprise Search or included features such as App Search, Workplace Search, Elastic web crawler or native connectors. For more details on discontinued products, please consult our [product subscription archive](#).

not currently available as a GA release, may not be delivered on time or at all. The development, release, and timing of any features or functionality described for our products remains at our sole discretion. Customers who purchase our products and services should make the purchase decisions based upon services and product features and functions that are currently available.
